Education

- Bachelor in Science in Information Technology**
Tarlac State University 2009-2013
I took up Information Technology because I am passionate about computers and technology. I enjoy learning how systems work, solving technical problems, and helping others through technology. IT provides opportunities for continuous learning, career growth, and contributing to the advancement of modern digital solutions

Experience

- Customer Service Representative**
Sitel Philippines 2026-2019
I chose Customer Service because I enjoy helping people, solving problems, and providing excellent customer experiences. I am motivated by the opportunity to communicate effectively, assist customers with their needs, and contribute to a positive and professional service environment.
- Product Researcher**
Amazon Product Researcher Virtual Assistant 2020-2023
I chose Amazon Product Research because I enjoy analyzing data, identifying market opportunities, and helping businesses find profitable products. I am interested in e-commerce and enjoy conducting research to support informed business decisions and growth.
- Web Developer**
Freelance 2024-2025
Working with React and JavaScript allows me to build modern, responsive applications while continuously learning new technologies and development practices. I am motivated by the opportunity to create meaningful user experiences and contribute to projects that make a positive impact on businesses and users.
- IT officer**
Brandlink Ph 2025-2026
 - Conducted routine inspection rounds from the 1st to the 3rd floor; no network or internet issues were detected.
 - Monitored system performance and verified that all workstations were operating normally.
 - Assisted users with technical concerns and provided troubleshooting support.
 - Removed inactive user accounts and updated user access permissions.
 - Set up and configured a new workstation, including printer connectivity and network access.
 - Performed preventive maintenance and optimization on assigned computers.
 - Verified the functionality of printers, network devices, and other IT equipment.
 - No pending IT tickets and no major system interruptions were encountered during the shift.
